

REBOUNDER XD

Channelizers

This is truly a breakthrough in technology meeting application. The Rebounder XD* uses a memory material that can be reformed to its original shape after vehicle impact. And climate conditions have no effect whatsoever on its performance.

Additionally, the flange has been specifically designed to greatly increase locking stability to bases, assuring a robust channelizer/base lock-up. There are many channelizers available—only a Rebounder XD* comes back to you.

Features

- Reshaping Technology
- Fracture-Resistant Handle
- Locking Base
- Super reinforced flange for 16# or 30# base lock stability
- Custom In-Molded, permanent logo option available
